

Air Liquide
HEALTHCARE

Home Oxygen Solutions

Air Liquide Healthcare is Australia's leading supplier of home medical oxygen therapy services and product solutions.

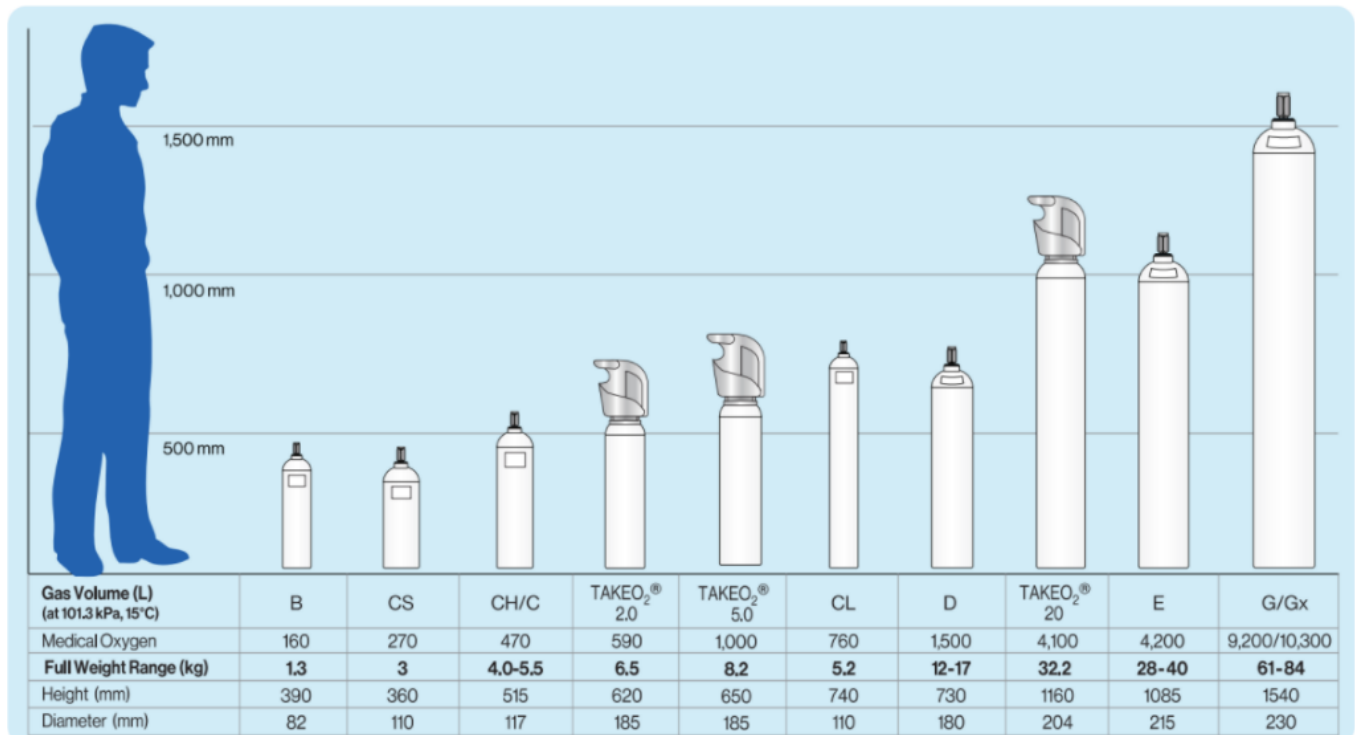

Our dedicated team of Specialists currently service more than 5.000 home oxygen patients throughout Australia.

At Air Liquide Healthcare, we strongly believe that a high level of support is the key in determining the effectiveness of your therapy. In partnership with your physician and health providers, Air Liquide Healthcare provides therapy solutions to meet your individual requirements and ongoing support.

Our knowledgeable customer service team are well trained to look after all your medical oxygen needs including:

- Education on the safe use of medical oxygen therapy
- Technical support and troubleshooting
- Support in travelling with medical oxygen
- Coordinating oxygen needs from hospital to your home
- Liaising with physicians and health providers
- Respiratory equipment and consumables
