# DAY SURGERY | MEDICAL GASES

Air Liquide is the world leader in gases, technologies and services for Industry and Health and is present in 80 countries. Air Liquide Healthcare has over 20 years of experience helping Australian doctors achieve the best results for their patients by providing solutions for the challenges doctors face every day. Air Liquide Healthcare provides a complete range of solutions for doctors and medical practices – everything you need from advice, equipment, supply of liquid nitrogen and medical gases to training you and your staff.

## Products and services

### Cylinders

We provide both conventional cylinders with detachable regulators as well as oxygen cylinders with integrated regulator and flowmeters.

### Gas accessories

### Integrated cylinders

TAKEO2™ and Prescence™ cylinders are a range of oxygen cylinders that come fitted with an integrated pressure regulator. These are exclusive to Air Liquide Healthcare and provide an ideal solution for safer and easier use of medical oxygen.

### Customised piping solutions

Experienced fitters ensure that medical gas piping systems are correctly installed. As part of our service, we specify, install, test and commission the cutting-edge technical equipment you need.

### Resuscitation

### Cryogenics

### Equipment maintenance

Air Liquide Healthcare offers preventive and corrective direct maintenance of your medical gas dispensing equipment.

Our qualified team is ready to help you optimise and maintain your equipment, ensuring you are fully compliant with Australian Standards.
