# LABORATORY | MEDICAL GASES

We have watched the world of research evolve over the last 20 years and we have changed with it. In such a complex field it is ideal to have the support of an experienced partner. Air Liquide Healthcare has experience helping Australian researchers achieve the best results. As a company that has specialised in medical gases for many years, we have the equipment to provide unique mixtures of gases to suit your immediate and long term needs.

## Products and services

We offer a comprehensive range of medical gases and associated gas delivery equipments.

### Cylinders

We provide both conventional cylinders with detachable regulators as well as oxygen cylinders with integrated regulator and flowmeters.

### Gas accessories

### Cryogenics

### Resuscitation

## Integrated cylinders

TAKEO2™ and Prescence™ cylinders are a range of oxygen cylinders that come fitted with an integrated pressure regulator. These are exclusive to Air Liquide Healthcare and provide an ideal solution for safer and easier use of medical oxygen.

## Equipment maintenance

Air Liquide Healthcare offers preventive and corrective direct maintenance of your medical gas dispensing equipment. Our qualified team is ready to help you optimise and maintain your equipment, ensuring you are fully compliant with Australian Standards.

## Customised piping installation

Experienced fitters ensure that medical gas piping systems are correctly installed. As part of our service, we specify, install, test and commission the cutting-edge technical equipment you need.
